

Benjamin A. Osawe, DM/IST, D.Eng, M.Sc. Cybersecurity, PMP, CSM
Founder and Chief Executive Officer
Cybersecurity & Project Management Executive

Dr. Benjamin Alonge Osawe is the founder and president of Clarity Advisory Services LLC, a boutique advisory practice specializing in information technology services, including cybersecurity, IT administration, and strategic planning. With over 20 years of experience in technology and operations management, Dr. Osawe is a seasoned project management executive. He has held various positions in technology, including information management services, telecommunication, project management, engineering services, and operations management for multinational companies.

Dr. Osawe is an experienced and versatile technology leader known for his attention to detail, customer service, and oral communication skills. He excels in vendor management, business development, project planning, and problem-solving. His areas of expertise include project management, reverse engineering, vulnerability analysis, network analysis, assembly, network protocols, Agile, Scrum, Oracle database design, and software requirements gathering using Unified Modeling Language (UML).

Dr. Osawe began his career as an engineer and holds a bachelor's degree (B.Eng.) in mechanical engineering from the University of Ilorin, Nigeria. He completed his Master of Science degree (MSc) in Computer Science from the University of Bradford, United Kingdom. After relocating to the United States, he earned a Doctor of Management (DM) in Information Systems & Technology from the University of Phoenix, AZ, and a Master of Science (MSc) in Cybersecurity from the University of Delaware, DE. Driven by his keen interest in cybersecurity, Dr. Osawe recently completed a Doctor of Engineering (D.Eng.) in Cybersecurity at George Washington University, Washington D.C. He resides in Maryland, USA, with his spouse Dr. Lola Osawe and their three children.
